

## Operation rooms

This center has 7 operation rooms and 1 recovery that include necessary equipment for all types of specialized and subspecialized operations for ladies. Presence of resident or on-call anesthetist in operation room and gynecology specialist or fellow resident has facilitated the 24-hours services. Among regular surgery operations that are done in operation rooms, we can refer to cesarean, curettage (that include curettage therapy, discharge curettage, missed abortion, MOL suction curettage), hysterectomy, colporrhaphy, laparotomy (EP), lymphadenectomy, laparoscopy, hysteroscopy, anesthetized examination, gonad cystectomy (Hemorrhagic, dermoid, malign cyst) etc.
